ENRICHMENT CAMPS

Camp Invention (Boys and girls entering grades K – 6)

Each STEM focused session will cover four different modules designed to inspire confidence and persistence, build essential STEM skills and improve reading skills. Camp Invention accomplishes this through collaborative, creative problem-solving activities that offer hands on fun! A sneak peak into programs include Robotic Aquatics, NiHF's The Attic, Spacecation, and Marble Arcade.

Session 1: June 6 - 9 (**Additional spots added, sign up today!**).....\$285

Robotics Aquatics - Using ocean research, kids' design tanks for their own robotic fish, discover symbiotic relationships, and develop and pitch their bio-inspired inventions!

NiHF's The Attic - Kids will experiment with animation, chemistry, and materials science using everything from paint to robots.

Spacecation - Children will create Spacepacks, build Astro-Arm devices and explore phenomena on Jupiter's moon.

Marble Arcade - Through teamwork and experimentation, children will investigate physics, engineering, mathematics, and gaming as they design, build, and test a mega marble machine.

Session 2: August 1 - 4\$285

The Innovation Force - Join world-changing inventors portrayed as real-life superheroes. Become an inventor and entrepreneur who can confidently bring your idea to market.

Deep Sea Mystery - Children join a deep-sea research expedition, and discover clever ways to overcome adversity after high winds damage their navigation equipment and they become stranded on an island. Working together, they will apply problem-solving skills, design and build prototypes of survival tools and equipment used to study marine life.

CAMP INVENTION SESSION 2 IS FILLED.

Camp Invention (Boys and girls entering grades K – 6)

Farm Tech - Campers will manage their own innovative farm and learn the basics of running a business. With the assistance of a robot, they will learn fundamental coding, and complete tasks like hatching eggs and planting seeds.

DIY Orbit - Kids will explore frequency, circuit boards, motors, and gears as they use real tools to reverse engineer their own remote-controlled DIY Orbot!

Summer Enrichment (Boys and girls entering grades 9 – 12)

Our four-week summer academic semester is open to currently enrolled Montverde Academy students. We have a variety of classes in subjects such as Social Studies, English, Science, Math, and test prep. Stay tuned for specific class offerings!
